

A SWOT Appraisal Armidale Dumaresq Council - Strengths, Weaknesses, Opportunities, Threats

We would like to thank Armidale Dumaresq Council for their willingness to provide us with their SWOT Analysis. We have developed a conversation map below based on their SWOT analysis, as an input in the 'whole of community planning process for a sustainable NESAC - New England Region'.

The systems map set out below is only an interpretation of a lengthy ADC SWOT analysis and only relevant aspects to the whole of community planning process have been highlighted here. We apologize for any misinterpretations. The ADC SWOT analysis concerned 4 key focus areas only 3 of which are addressed here. The 4th focus area was considered mainly of internal organisational interest and was not mapped here for that reason.
